

Michigan Political Townships Containing High Risk Erosion Areas (HREA)

The highlighted areas identify those political townships which contain stretches of shoreland that are designated as High Risk Erosion Area (HREA) under Part 323, Shorelands Protection and Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. This map is intended to provide the general distribution of HREAs. Highlighted townships do not necessarily have their entire shoreland designated as HREA. Refer to the detailed township maps for a more detailed view of a specific HREA. Contact the Land and Water Management Division at (517) 241-1515 for more information about the HREA program.
